

Unidrum Lever

Metric Push-Pull and Pull-Only Hand Control

Hand Control Industrial

A control head designed primarily for hand throttle applications on commercial and industrial vehicles, and also suitable for many other uses. Compact and efficient for imparting light-to-medium pull-only or push-pull loads through flexible conduits and inner-members. Unidrum controls hold and operate up to 12kg push-pull or pull-only output loads. Mechanical advantage at knob is 5 to 1. There is a self locking nut for operator adjustment of friction setting. The adjustable stop plates allow 10° (5mm linear output) incremental travel adjustment. 50mm of cable travel requires approximately 90° lever travel. 75mm of cable requires approximately 135° lever travel. The lever position is adjustable in 60° increments to provide optimum operating range. Optional cable entry offers four mountings/directions of operation alternatives. Also available with a smaller handle for light duty applications or with a locking handle.

Description:

Unidrum Lever
Industrial Metric Push-Pull
and Pull-Only Hand Control

Applications:

- Medium to light duty throttle compactors
- Valve dump control jackhammers
- Hydraulic valve control concrete cutters
- Backhoe throttle

Features:

- Adjustable friction lock
- 5 to 1 mechanical advantage
- Adjustable mechanical stops

Other Related Products:

- All other hand levers

Unidrum Lever

- Hold and operate up to 11kg push-pull or pull-only output load. Mechanical advantage at knob is 5/1.
- Self-locking nut for operator adjustment of friction setting.
- Adjustable stop plates allow 10° incremental travel adjustment.
- Lever position is adjustable in 60° increments.
- Four optional cable entry alternatives.
- Rugged diecast zinc alloy material.
- Mount with (4) M5 screws or bolts.

CH290 (Unidrum Operator Positive Lock)

- Hold and operate up to 12kg push-pull or pull-only output load. Mechanical advantage at knob is 5/1.
- Self-locking nut for operator adjustment of friction setting.
- Adjustable stop plates allow 10° (5.5mm linear output) incremental travel adjustment. 50mm of cable travel requires approximately 90° lever travel.
- Optional cable entry.
- Rugged diecast zinc alloy material.
- Side mount at 104 centres.
